
NO140 Les calculs de l'oncle Paul

a) Non: $\frac{1}{2} + \frac{1}{4} + \frac{1}{3} = \frac{6}{12} + \frac{3}{12} + \frac{4}{12} = \frac{13}{12} > 1$

b) 2, 3 et 6: $\frac{1}{2} + \frac{1}{3} + \frac{1}{6} = \frac{3}{6} + \frac{2}{6} + \frac{1}{6} = \frac{6}{6} = 1$
